

iDOL²

IDOL²

This extension to the original IDOL collection offers a seated position complete with custom-fitted stool, which can be finished to suit your store interior. A back-waist spigot is available for grounding the sitter to store fixtures. The new casual standing position is the same body shape as the original IDOL male. A new younger looking head has been sculpted with wider boyish features. This can be specified with natural make up and wig or as the new sculpted hair option. All original IDOL poses are available with the new head option, natural or sculpted hair.
