Sculpt hair head

Abstract head

Sculpted by Rob Patterson

Young, hip and urban: the METROpolitan collection has been created with just the right mix of attitude and style, appealing to today's most directional young streetwear brands.

Comprising 12 indispensable poses, including sitters and kneeling positions, METROpolitan offers a smooth abstract head and an edgy sculpt hair head, both of which are available in an infinite choice of colours and finishes. An inspired selection of powder-matt cellulose skin shades with illustrative style facial and hair details, durable two-pack paints and a full spectrum of lustrous metallic colours, combine with a clever round shoulder joint which allows arms to be interchangeable, meaning that the range has further position possibilities.

Measuring up with a slim 36"(91.5cm) chest, 28"(71cm) waist and 19"(48cm) top of thigh, these guys can wear the skinniest of trouser cuts with ease and look equally cool in sharp, slim-tailored suiting or layered up, off-duty casual clothing.
